

PETROFAB
SERVICES

2026 EDITION

PRODUCT CATALOG.

All Solutions for Oil & Gas Industry. Instrumentation, pneumatics, valves, drilling equipment, compressors, crane accessories and spares, supplied to the oil, gas, power, manufacturing and petrochemical sectors from Doha, Qatar.

PRICING

Every item is quoted to
specification and quantity.
Request a quote to begin.

PNEUMATIC
High pressure solenoid valve

The high-pressure solenoid valve is available in direct-acting and pilot-operated designs, featuring a three-dimensional...

PNEUMATIC
Explosion-proof solenoid valve

The explosion-proof solenoid valve is a critical control component, widely used in petrochemical, metallurgy, environmen...

PNEUMATIC
Diaphragm solenoid valve

The diaphragm solenoid valve is designed for water or liquid-based applications, providing automatic or remote control o...

PNEUMATIC
Pilot Type Flange Solenoid Valve

The flange solenoid valve operates by controlling the valve core movement through the energizing and de-energizing of th...

PNEUMATIC
Direct acting brass solenoid valve

The direct-acting solenoid valve operates by directly driving the spool through an electromagnetic coil. It features a s...

PNEUMATIC
Stainless steel wire solenoid valve

The stainless steel wire solenoid valve is constructed from high-quality stainless steel, offering excellent corrosion r...

Series 140

INSTRUMENTATION
Safety Valves - Series 140

ASME SECTION VIII FOR AIR-GAS Our Series 140 is designed for heavy-duty applications where a compact valve is required. ...

Series 130

INSTRUMENTATION
Safety Valves - Series 130

ASME SECTION VIII FOR AIR-GAS AND STEAM SERVICES Our Series 130 pressure relief valves provide safety and pressure relie...

Series 120

INSTRUMENTATION
Safety Valves - Series 120

ASME SECTION VIII FOR AIR-GAS AND STEAM SERVICES Our Series 120 pressure relief valve is designed for safety and pressur...

Series 69

INSTRUMENTATION

Relief Valves - Series 69

NON-CODE ADJUSTABLE LIQUID RELIEF VALVE, WATER RELIEF VALVE Series 69 is a high-performance liquid relief valve designed...

Series 560

INSTRUMENTATION

Safety Valves - Series 560

ASME SECTION I & SECTION VIII – SAFETY RELIEF VALVES 560 / 570 Series – High-Capacity Industrial Safety Valves The 560 /...

Series 740

INSTRUMENTATION

Safety Relief Valves - Series 740

ASME SECTION VIII – Suitable for Air, Gas, Steam, or Liquid Service The Series 740 safety and relief valve is built for ...

INSTRUMENTATION

D90 SADDLE WELD DIAPHRAGM SEAL

DESCRIPTION & FEATURES Cleanout design – Facilitates easy maintenance and prevents blockages Available in various pipe s...

INSTRUMENTATION

D85 IN LINE FLOW THRU DIAPHRAGM SEAL

DESCRIPTION & FEATURES Two-piece construction – Designed for durability and ease of maintenance Clean-out design – Allow...

INSTRUMENTATION

D81 ISOLATION RING

DESCRIPTION & FEATURES Versatile design – Available in various materials and configurations to suit specific application...

INSTRUMENTATION

D74 2-PIECE INDUSTRIAL SEAL

DESCRIPTION & FEATURES Two-piece construction – Built to endure even the most severe process conditions "Continuous use"...

INSTRUMENTATION

D71 NACE 2-PIECE DIAPHRAGM SEAL (MONEL®)

DESCRIPTION & FEATURES NACE MR0175-2003 compliant – Suitable for applications requiring NACE-certified diaphragm seals A...

INSTRUMENTATION

D71 70 NACE 2-PIECE DIAPHRAGM SEAL (HASTELLOY® C)

DESCRIPTION & FEATURES NACE MR0103-2003 compliant – Suitable for applications requiring NACE-certified diaphragm seals A...

INSTRUMENTATION

D70 HEAVY DUTY 2-PIECE INDUSTRIAL DIAPHRAGM SEAL

DESCRIPTION & FEATURES Two-piece construction – Built to withstand severe process conditions “Continuous use” seals – Ba...

INSTRUMENTATION

D46 FLANGED FLUSH MOUNT SEAL

DESCRIPTION & FEATURES One-piece design – No internal gaskets or O-rings for enhanced durability Flush diaphragm – Elimi...

INSTRUMENTATION

D44 FLANGED DIAPHRAGM SEAL WELDED

DESCRIPTION & FEATURES Designed for continuous use – Backing plate prevents diaphragm rupture if the pressure sensing in...

INSTRUMENTATION

D44 FLANGED DIAPHRAGM SEAL PTFE

DESCRIPTION & FEATURES Designed for continuous use with a backing plate to prevent diaphragm rupture Maintains pressure ...

INSTRUMENTATION

D40 MEDIUM DUTY DIAPHRAGM SEAL

DESCRIPTION & FEATURES Compact, one-piece design for easy installation Lightweight and economical solution ASME B40.100 ...

INSTRUMENTATION

D30 HIGH PRESSURE DIAPHRAGM SEAL

DESCRIPTION & FEATURES Compact, lightweight, and economical design Constructed from AISI 316 stainless steel with a weld...

INSTRUMENTATION

D20 SANITARY DIAPHRAGM SEAL

DESCRIPTION & FEATURES Designed for dairy, food, beverage, chemical, and pharmaceutical industries 3A approved for sanit...

INSTRUMENTATION

D15 THREADED FLUSH MOUNT DIAPHRAGM SEAL

DESCRIPTION & FEATURES Welded diaphragm at the end of the male NPT connection eliminates the typical diaphragm chamber, ...

INSTRUMENTATION

D10 PVC 2-PIECE DIAPHRAGM SEAL

DESCRIPTION & FEATURES Durable and flexible PTFE diaphragm seal provides a protective barrier between the process fluid ...

INSTRUMENTATION

WPS COMMERCIAL DIFFERENTIAL PRESSURE SWITCH

DESCRIPTION & FEATURES Ideal for BAS and HVAC applications requiring precise pressure monitoring and control Low-pressur...

INSTRUMENTATION

10WPS Explosion proof differential pressure switch

DESCRIPTION & FEATURES Heavy-duty explosion-proof differential pressure switch Pressure range: Low pressure up to 300 ps...

INSTRUMENTATION

9WPS EXPLOSION PROOF COMPACT PRESSURE SWITCH

DESCRIPTION & FEATURES Wide pressure range: Vacuum to 10,000 psi Explosion-proof SPDT or DPDT switch for reliable operat...

INSTRUMENTATION

8WPS Vacuum and Low Pressure Explosion Proof Pressure Switch

DESCRIPTION & FEATURES Heavy-duty explosion-proof pressure switch for extreme environments Vacuum pressure up to 10 psi ...

INSTRUMENTATION

7WPS Medium Pressure, Explosion Proof And Adjustable Deadband Pressure Switch

DESCRIPTION & FEATURES Heavy-duty explosion-proof pressure switch for hazardous environments Pressure range: Low pressur...

INSTRUMENTATION

6WPS Explosion proof and adjustable deadband pressure switch

DESCRIPTION & FEATURES Heavy-duty explosion-proof design for hazardous environments Pressure range: Low pressure up to 4...

INSTRUMENTATION

5WPS differential pressure switch

DESCRIPTION & FEATURES Low-pressure range up to 300 psi High current ratings for 1 x SPDT or 2 x SPDT switches Fixed dea...

INSTRUMENTATION

4WPS Medium Pressure and Adjustable Deadband Pressure Switch

DESCRIPTION & FEATURES General-purpose, watertight pressure switch for industrial applications Pressure range: Low press...

INSTRUMENTATION

3WPS Vacuum and Low Pressure Switch

DESCRIPTION & FEATURES General-purpose, watertight pressure switch for industrial applications Pressure range: Vacuum pr...

INSTRUMENTATION

2WPS General Purpose and Adjustable Deadband Pressure Switch

DESCRIPTION & FEATURES General-purpose, watertight pressure switch for various industrial applications Pressure range: L...

INSTRUMENTATION

1WPS COMPACT PRESSURE SWITCH

DESCRIPTION & FEATURES Compact all-purpose pressure switch for various applications All stainless steel housing with dia...

INSTRUMENTATION

LTF FLUSH MOUNT PRESSURE TRANSMITTER

DESCRIPTION & FEATURES Flush-mounted stainless steel diaphragm to eliminate debris build-up in the pressure cavity Compa...

INSTRUMENTATION

LTD DIFFERENTIAL PRESSURE TRANSMITTER

DESCRIPTION & FEATURES Designed to measure the differential pressures of liquids and gases Compact yet rugged stainless ...

INSTRUMENTATION

LST SANITARY PRESSURE TRANSMITTER

DESCRIPTION & FEATURES Sanitary tri-clamp with all stainless steel construction, designed to eliminate debris build-up i...

INSTRUMENTATION

LMH HYDRAULIC PRESSURE TRANSMITTER

DESCRIPTION & FEATURES Ideal for all applications with vibration and pulsation Compact, all stainless steel construction...

INSTRUMENTATION

LM7 GENERAL PURPOSE SUBMERSIBLE PRESSURE TRANSMITTER

DESCRIPTION & FEATURES Designed for continuous level measurement in clean water, reservoirs, and treatment plants Rugged...

INSTRUMENTATION

LM6 ALL STAINLESS STEEL SUBMERSIBLE PRESSURE TRANSMITTER

DESCRIPTION & FEATURES Designed for continuous level measurement in clean water, reservoirs, and treatment plants Rugged...

INSTRUMENTATION

LM1 ANTI-CLOGGING SUBMERSIBLE PRESSURE TRANSMITTER

DESCRIPTION & FEATURES Heavy-duty submersible transmitter for level measurement in sludge and slurry installations 316L ...

INSTRUMENTATION

LIM AGGRESSIVE MEDIA PRESSURE TRANSMITTER

DESCRIPTION & FEATURES Heavy-duty pressure transmitter with advanced digital electronics and high over-pressure protecti...

INSTRUMENTATION

LE3 GENERAL PURPOSE PRESSURE TRANSMITTER

DESCRIPTION & FEATURES Developed for use in general industry and OEM applications, where versatility and low cost are ke...

INSTRUMENTATION

LE1 OEM PRESSURE TRANSMITTER

DESCRIPTION & FEATURES Developed for OEM applications Compact stainless steel construction with ceramic sensor Available...

INSTRUMENTATION

PTB TURBINE PRESSURE GAUGE

DESCRIPTION & FEATURES Manufactured to GE® specifications Machined cast brass case with an oil-tight machined cast alumi...

INSTRUMENTATION

POOL GAUGE

DESCRIPTION & FEATURES 2" (50mm) dial for clear visibility Weather-resistant black ABS plastic case Durable brass wetted...

INSTRUMENTATION

PMN MINING PRESSURE GAUGE

DESCRIPTION & FEATURES Durable 2" (50mm) forged brass case and connection Forged brass case and socket for added strengt...

INSTRUMENTATION

PLP LOW PRESSURE GAUGE

DESCRIPTION & FEATURES Highly accurate measurement of low pressures Available with brass or stainless steel wetted parts...

INSTRUMENTATION

PFG REFRIGERATION GAUGE

DESCRIPTION & FEATURES Durable gauges available in 2.5" (63mm) to 6" (150mm) sizes 2.5" (63mm) dial features blue and re...

INSTRUMENTATION

PFE SPRINKLER GAUGE

DESCRIPTION & FEATURES Specifically designed for fire sprinkler systems Compatible with both air and water media Corrosi...

INSTRUMENTATION

PEC PREMIUM STAINLESS STEEL PRESSURE GAUGE WITH ELECTRICAL CONTACTS

DESCRIPTION & FEATURES 4" dial for clear visibility Silicone-fillable stainless steel gauge for durability Independently...

INSTRUMENTATION

PAM AMMONIA PRESSURE GAUGE

DESCRIPTION & FEATURES Designed for measuring pressure and temperature in ammonia systems Accuracy range: $\pm 0.5\%$ to $\pm 3-2\%$...

INSTRUMENTATION

PAL ALTITUDE PRESSURE GAUGE

DESCRIPTION & FEATURES Premium aluminum case gauge designed for head pressure measurement Available with stainless steel...

INSTRUMENTATION

DPG Plus High Precision Digital Pressure Gauge

DESCRIPTION & FEATURES Highly accurate digital pressure gauge with sophisticated functionality Bluetooth connectivity fo...

INSTRUMENTATION

DPG DIGITAL PRESSURE GAUGE

DESCRIPTION & FEATURES Simple 2-button operation for ease of use Reset-to-zero feature for accurate readings Backlight a...

INSTRUMENTATION

PSQ 3A ALL-PURPOSE QUALITY SANITARY GAUGE

DESCRIPTION & FEATURES High-quality series designed for all sanitary gauge systems Standard food-grade glycerin filling ...

INSTRUMENTATION

PSI INDUSTRIAL SANITARY GAUGE ASSEMBLY

DESCRIPTION & FEATURES Durable stainless steel gauge case for long-lasting performance 3A approved sanitary seal (filled...

INSTRUMENTATION

PAG 3A PHARMACEUTICAL, FOOD, BEVERAGE & DAIRY SANITARY GAUGE

DESCRIPTION & FEATURES Specifically designed for food, beverage, dairy, and pharmaceutical applications. $\pm 0.75\%$ full-sca...

INSTRUMENTATION

PWL WELDING GAUGE

DESCRIPTION & FEATURES Economical, non-sparking brass case for safe operation in regulated environments. Available in 1....

INSTRUMENTATION

PUP ULTRA HIGH PURITY PRESSURE GAUGE

DESCRIPTION & FEATURES All stainless steel construction with an electro-polished finish for superior durability. Helium ...

INSTRUMENTATION

PSP HIGH-VOLUME OEM SPIRAL TUBE PRESSURE GAUGE

DESCRIPTION & FEATURES Compact, low-profile gauge designed for reliability. Available in 1" (25mm) to 1.5" (40mm) sizes ...

INSTRUMENTATION

PRL REGULATOR GAUGE

DESCRIPTION & FEATURES Compact all stainless steel gauge designed for durability. Available in 1.5" (40mm) and 2" (50mm)...

INSTRUMENTATION

PCG COMPRESSED GAS PRESSURE GAUGE

DESCRIPTION & FEATURES Economical 2" (50mm) gauge designed for cost-effective performance. Built-in safety features incl...

INSTRUMENTATION

PVD CONVOLUTED DIAPHRAGM GAUGE

DESCRIPTION & FEATURES Versatile high static low differential pressure gauge for precise monitoring. Switches available ...

INSTRUMENTATION

PSD SMALL CONVOLUTED DIAPHRAGM GAUGE

DESCRIPTION & FEATURES Versatile high static low differential pressure gauge for accurate monitoring. Switches available...

INSTRUMENTATION

PRD ROLLING DIAPHRAGM PRESSURE GAUGE

DESCRIPTION & FEATURES Multi-purpose high static low differential pressure gauge for precise monitoring. Switches availa...

INSTRUMENTATION

PPD PISTON PRESSURE GAUGE

DESCRIPTION & FEATURES Versatile high-static low differential pressure gauge for precise measurement. Optional switches ...

INSTRUMENTATION

PFD WinAIR DIFFERENTIAL PRESSURE GAUGE

DESCRIPTION & FEATURES Resistance-free differential gauge for accurate air and non-corrosive gas measurements. Durable d...

INSTRUMENTATION

PFD WinAIR Compact Differential Gauge

DESCRIPTION & FEATURES Resistance-free differential gauge for precise air and non-corrosive gas measurements. Compact de...

INSTRUMENTATION

PDX DUPLEX PRESSURE GAUGE

DESCRIPTION & FEATURES Heavy-duty, highly accurate aluminum case for durability. Brass and stainless steel wetted parts ...

INSTRUMENTATION

PDT DIFFERENTIAL PRESSURE GAUGE

DESCRIPTION & FEATURES Brass or stainless steel wetted parts for compatibility with various applications. Available in b...

INSTRUMENTATION

PFQ STAINLESS STEEL LIQUID FILLED PRESSURE GAUGE / PFQ-LF LEAD FREE SS LIQUID FILLED PRESSURE GAUGE

DESCRIPTION & FEATURES Pulsation-resistant design with a liquid-filled stainless steel case for durability. Standard gly...

INSTRUMENTATION

PET ECONOMY TEST GAUGE/ PET-LF LEAD FREE ECONOMY TEST GAUGE

DESCRIPTION & FEATURES Cost-effective pressure gauge and valve assembly designed for pressure testing applications. Blee...

INSTRUMENTATION

PEM ECONOMY PRESSURE GAUGE / PEM-LF LEAD FREE ECONOMY PRESSURE GAUGE

DESCRIPTION & FEATURES Affordable, multi-purpose pressure gauge for various applications. Available in 1.5" (40mm) to 4"...

INSTRUMENTATION

PCT CONTRACTOR PRESSURE GAUGE/ PCT-LF LEAD FREE CONTRACTOR GAUGE

DESCRIPTION & FEATURES Cost-effective 4.5" (115mm) stainless steel case gauge, built for reliability. Brass or lead-free...

INSTRUMENTATION

TWW WELD-IN THREADED THERMOWELL

DESCRIPTION & FEATURES Designed for applications requiring a welded thermowell RoHS compliant for environmental safety 5...

INSTRUMENTATION

TWS SOCKET WELD BI-METAL THERMOWELL

DESCRIPTION & FEATURES Designed for permanent installation by welding within the system Cost-effective solution for secu...

INSTRUMENTATION

TWF FLANGED THREADED THERMOWELL

DESCRIPTION & FEATURES Specifically designed for use in closed systems RoHS compliant for environmental safety 5-year wa...

INSTRUMENTATION

TST TRIDICATOR SHUT-OFF THERMOWELL

DESCRIPTION & FEATURES Spring-loaded design keeps TST open when the tridicator is installed and automatically closes upo...

INSTRUMENTATION

PEU ECONOMY PANEL MOUNTED GAUGE

DESCRIPTION & FEATURES Most economical panel-mounted pressure gauge, designed for various applications. Available in 1.5...

INSTRUMENTATION

TSN SANITARY THERMOWELL

DESCRIPTION & FEATURES Enables easy installation and replacement of bi-metallic dial thermometers without draining the p...

INSTRUMENTATION

TIW INDUSTRIAL THERMOWELL / TIW-LF LEAD FREE INDUSTRIAL THERMOWELL

DESCRIPTION & FEATURES Compatible with all 9" (228mm) industrial thermometers to create a "sealed system" Enables easy t...

INSTRUMENTATION

PEM ECONOMY PRESSURE GAUGE / PEM-LF LEAD FREE ECONOMY PRESSURE GAUGE

DESCRIPTION & FEATURES Most economical, all-purpose pressure gauge, suitable for various applications. Available in 1.5" ...

INSTRUMENTATION

TDF DUCT FLANGE

DESCRIPTION & FEATURES Designed for ventilation installations Lightweight aluminum construction ensures durable mounting...

INSTRUMENTATION

P9U 90 SERIES PANEL MOUNTED PRESSURE GAUGE

DESCRIPTION & FEATURES General-purpose panel-mounted gauge available in 1.5" (40mm) to 3.5" (90mm) dial sizes. Flutterle...

INSTRUMENTATION

TBR BI-METAL THREADED THERMOWELL

DESCRIPTION & FEATURES Available in a variety of materials to suit most applications Standard "stepped construction" des...

INSTRUMENTATION

P9S 90 SERIES PRESSURE GAUGE

DESCRIPTION & FEATURES General-purpose gauge designed for serviceability and pulsation resistance. Available in 1.5" (40...

INSTRUMENTATION

WINSMART™ TY52 SMART EXPLOSION PROOF TEMPERATURE TRANSMITTER

DESCRIPTION & FEATURES Integrated temperature transmitter with ASIC signaling technology Explosion-proof smart transmitt...

INSTRUMENTATION

TET INDUSTRIAL THERMOCOUPLE

DESCRIPTION & FEATURES Type J & K thermocouple sensors with a wide temperature range; other types available upon request...

INSTRUMENTATION

PXT XMAS TREE GAUGE

DESCRIPTION & FEATURES High-quality, heavy-duty gauge built for corrosive environments. Stainless steel liquid-filled ca...

INSTRUMENTATION

TER INDUSTRIAL RTD

DESCRIPTION & FEATURES High-accuracy Platinum element (Pt100) for precise temperature measurement Lightweight aluminum c...

INSTRUMENTATION

PTS TUBE STUB PRESSURE GAUGE

DESCRIPTION & FEATURES Designed for use with standard double ferrule tube fittings, such as Parker A-Lok®. Heavy-duty st...

INSTRUMENTATION

TTD TRIDICATOR

DESCRIPTION & FEATURES Measures both pressure and temperature on the same dial Available in 2.5" (63mm) and 3" (75mm) di...

INSTRUMENTATION

TSW HOT WATER THERMOMETER / TSW-LF LEAD FREE HOT WATER THERMOMETER

DESCRIPTION & FEATURES Economical and accurate solution for measuring air or water temperatures Includes a separable bra...

INSTRUMENTATION

PTG TEST GAUGE

DESCRIPTION & FEATURES Highly accurate $\pm 0.5\%$, supplied with calibration certificate traceable to NIST standards. Mirrore...

INSTRUMENTATION

TSD INDUSTRIAL SOLAR DIGITAL THERMOMETER

DESCRIPTION & FEATURES Versatile solar-powered digital thermometer for industrial and commercial plumbing applications O...

INSTRUMENTATION

PSC SAFETY CASE PRESSURE GAUGE

DESCRIPTION & FEATURES Solid front blowout back for maximum gauge safety. Full rotary movement with micrometer pointer f...

INSTRUMENTATION

TRR GAS OR VAPOUR REMOTE READING THERMOMETER

DESCRIPTION & FEATURES Versatile, heavy-duty gas or vapor thermometer for remote reading Multiple varieties available fr...

INSTRUMENTATION

TNR FOOD & BEVERAGE BI-METAL THERMOMETER

DESCRIPTION & FEATURES General-purpose, tamper-proof thermometer made of 304 stainless steel Hermetically sealed case fo...

INSTRUMENTATION

PN2 NACE LIQUID FILLED PRESSURE GAUGE-MR0175-2002

DESCRIPTION & FEATURES Designed for sour gas applications meeting NACE Standards MR0175-2002 (MR0103-2003 available). Gl...

INSTRUMENTATION

TMT SURFACE MAGNET THERMOMETER

DESCRIPTION & FEATURES Economical and accurate solution for measuring temperature on flat metallic surfaces 2" (50mm) di...

PFQ STAINLESS STEEL LIQUID FILLED PRESSURE GAUGE WITH SAE CONNECTION

DESCRIPTION & FEATURES Pulsation-resistant, liquid-filled stainless steel case for enhanced durability. Standard glyceri...

INSTRUMENTATION

TIM INDUSTRIAL 9" THERMOMETER / TIM-LF LEAD FREE INDUSTRIAL 9" THERMOMETER

DESCRIPTION & FEATURES Widely used in industrial and commercial plumbing applications Includes a separable brass or lead...

INSTRUMENTATION

THS SOLAR DIGITAL BI-METAL THERMOMETER

DESCRIPTION & FEATURES Solar-powered digital thermometer with precise local temperature reading to 1/10 of a degree 304 ...

INSTRUMENTATION

PFQ STAINLESS STEEL LIQUID FILLED PRESSURE GAUGE / PFQ-LF LEAD FREE SS LIQUID FILLED PRESSURE GAUGE

DESCRIPTION & FEATURES Pulsation-resistant, liquid-filled stainless steel case for durability. Standard glycerin filling...

INSTRUMENTATION

THR HVAC REMOTE READING THERMOMETER

DESCRIPTION & FEATURES Economical vapor thermometer for remote reading applications Available in stainless steel or blac...

INSTRUMENTATION

TCT CLAMP-ON THERMOMETER

DESCRIPTION & FEATURES Economical and accurate solution for measuring surface temperatures on 1/2" (12.5mm) to 4" (100mm)...

INSTRUMENTATION

PFP PREMIUM STAINLESS STEEL LIQUID FILLED PRESSURE GAUGE FOR PANEL MOUNTING

DESCRIPTION & FEATURES Liquid-filled stainless steel case for protection against extreme vibration and pulsation. Lower ...

INSTRUMENTATION

TBT HVAC BI-METAL THERMOMETER

DESCRIPTION & FEATURES Durable and accurate thermometer with a rigid connection. Separable thermowell for added versatility...

INSTRUMENTATION

PFP PREMIUM STAINLESS STEEL LIQUID FILLED PRESSURE GAUGE

DESCRIPTION & FEATURES Liquid-filled stainless steel case provides protection against vibration and pulsation. Bayonet r...

INSTRUMENTATION

TBM BI-METAL THERMOMETER

DESCRIPTION & FEATURES General-purpose, versatile thermometer with a 1" (25mm) to 6" (150mm) dial, made of 304 stainless...

INSTRUMENTATION

TAS INDUSTRIAL 5" THERMOMETER / TAS-LF LEAD FREE INDUSTRIAL 5" THERMOMETER

DESCRIPTION & FEATURES All-purpose, economical thermometer with a vertical sensing tube and case. Separable brass, lead-free...

INSTRUMENTATION

TAG HVAC GOLD CASE THERMOMETER

DESCRIPTION & FEATURES 4.5" (115mm) x 6" (150mm) scales. Standard 1/2" NPT brass socket (stainless steel o...

INSTRUMENTATION

HYGROMETER

DESCRIPTION & FEATURES Temperature (°F & °C) and humidity (%) measurement. 4.5" (115mm) dial. 304 SS case. Application...

INSTRUMENTATION

PFH HYDRAULIC STAINLESS STEEL LIQUID FILLED PRESSURE GAUGE

DESCRIPTION & FEATURES Robust construction designed to withstand extreme vibration and pulsation. Universal fill compatible...

INSTRUMENTATION

HYDROMETER

DESCRIPTION & FEATURES Revenue Canada Customs & Excise certified (upon request). Sugar, alcohol, brewery saccharometer...

INSTRUMENTATION

PCT CONTRACTOR PRESSURE GAUGE/ PCT-LF LEAD FREE CONTRACTOR GAUGE

DESCRIPTION & FEATURES Economical 4.5" (115mm) stainless steel case gauge for durability. Brass or lead-free brass wetted...

INSTRUMENTATION

PCC COLOUR CODED PRESSURE GAUGE

DESCRIPTION & FEATURES Unique pressure instrument with color-coded cases for easy process identification. 4 UV-resistant...

INSTRUMENTATION

PBC FORGED BRASS CASE PRESSURE GAUGE

DESCRIPTION & FEATURES One-piece forged brass case designed for severe service conditions. Easy-to-read dial available i...

INSTRUMENTATION

P3S 300 SERIES PRESSURE GAUGE

DESCRIPTION & FEATURES Heavy-duty, highly accurate gauge with a durable aluminum case. $\pm 0.5\%$ accuracy for precise measur...

INSTRUMENTATION

P1S 100 SERIES PRESSURE GAUGE

DESCRIPTION & FEATURES High-quality, commercial-grade gauge designed for reliability at an economical price. $\pm 1\%$ accurac...

INSTRUMENTATION

PPC-ZR StabilizR® PROCESS GAUGE

DESCRIPTION & FEATURES StabilizR® dampened movement minimizes pulsation and vibration effects, performing as effective...

INSTRUMENTATION

PN2-ZR NACE StabilizR® PRESSURE GAUGE-MR0175-2002

DESCRIPTION & FEATURES Designed for sour gas applications requiring NACE Standards MR0175-2002 (MR0103-2003 available). ...

INSTRUMENTATION

PFQ-ZR StabilizR® STAINLESS STEEL PRESSURE GAUGE

DESCRIPTION & FEATURES StabilizR® dampened movement minimizes pulsation and vibration effects without liquid filling (fl...

INSTRUMENTATION

PFP-ZR PREMIUM STAINLESS STEEL StabilizR® PRESSURE GAUGE

DESCRIPTION & FEATURES StabilizR® dampened movement minimizes pulsation and vibration effects as effectively as liquid...

INSTRUMENTATION

PEM-ZR ECONOMY StabilizR® GAUGE

DESCRIPTION & FEATURES StabilizR® dampened movement reduces the effects of pulsation and vibration for accurate readings...

INSTRUMENTATION

PSG SHAEFFER PRESSURE GAUGE

DESCRIPTION & FEATURES Combination pressure gauge and diaphragm seal, forming a single instrument for low-pressure measu...

INSTRUMENTATION

PRC RECEIVER PRESSURE GAUGE

DESCRIPTION & FEATURES High-quality gauge designed for use with pneumatic transmitters or controllers. Operates at 3-15 ...

INSTRUMENTATION

AUTOMATION PLATFORMS

Remote IOs

Automation platforms often involve
managing a vast array of cables. Remote
systems simplify control connections to
equip...

CABLING AND INTERCONNECTING SYSTEMS

Accessories

An extensive range of accessories is at your
disposal. We source the finest products from
our suppliers to provide you w...

CABLING AND INTERCONNECTING SYSTEMS

Electrical Enclosures

Available in various formats, the electrical
enclosures are engineered to suit all types of
industries. With superior fi...

CABLING AND INTERCONNECTING SYSTEMS

Terminal Blocs

The connection terminals are expertly crafted
for seamless interconnection of your
equipment in any environment. With a ...

CABLING AND INTERCONNECTING SYSTEMS

Pilot Devices

This product range lets you optimize and
customize your equipment. From lamp colors
and switch types to the desired butt...

CABLING AND INTERCONNECTING SYSTEMS

Contactors and Overload Relays

The contactors and overload relays are
engineered to meet network requirements,
no matter the connection type or global ...

CABLING AND INTERCONNECTING SYSTEMS

Wiring Ducts and cable management

More than just a conduit for your wiring,
ducts help you efficiently organize your
switchboards and installations. Avail...

CABLING AND INTERCONNECTING SYSTEMS

Explosion Proof Systems

Ideal for extreme conditions, whether in
freezing cold or intense heat, this range of
explosion-proof products is design...

CABLING AND INTERCONNECTING SYSTEMS

Control Relays

Control relays provide robust protection for your equipment across various applications, preventing unplanned downtime. ...

CABLING AND INTERCONNECTING SYSTEMS

Disconnect Switches

Switch disconnectors are versatile and suitable for numerous applications. Their extensive range of modular accessories ...

CABLING AND INTERCONNECTING SYSTEMS

Electronic Interfaces, Signal Conditioning and Intrinsically safe Interfaces

Signal conditioners and isolation amplifiers perform numerous functions across various applications, ensuring safe and a...

CABLING AND INTERCONNECTING SYSTEMS

Mini Breakers

Miniature circuit breakers ensure electrical safety across various applications. They feature two distinct trigger mecha...

CONTROL PANEL AND ACCESSORIES

Breakers and Current Limiting Breakers

Tmax XT molded case circuit breakers are easy to install, enhance safety, and deliver outstanding performance while occu...

CABLING AND INTERCONNECTING SYSTEMS

Deported VFD

Certain installations prevent the integration of central control with the drive. That's why we provide a range of remote...

CABLING AND INTERCONNECTING SYSTEMS

Enclosed disconnect switches

Disconnecting motors in the field during maintenance is essential. Pre-assembled NEMA enclosed disconnect switches are r...

CABLING AND INTERCONNECTING SYSTEMS

Sensor cables

Sensor wiring plays a vital role in the efficiency of your installations. With attention to materials, connections, and ...

CABLING AND INTERCONNECTING SYSTEMS

Motor cables

Motor connections demand durable wiring and precise lengths. The available references allow customization of all connect...

CABLING AND INTERCONNECTING SYSTEMS

Network cables

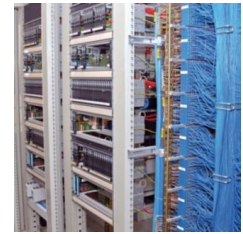

Network cabling establishes connections with your equipment and control tools. It supports both internal connections and...

CABLING AND INTERCONNECTING SYSTEMS

Entry systems

Entry systems are crucial for completing your electrical panels. They enable seamless wiring integration with a polished...

CABLING AND INTERCONNECTING SYSTEMS

IP67 remote IOs

Your setup is cluttered with excessive cabling, making remote systems indispensable. IO modules seamlessly integrate wit...

SENSORS FOR MACHINE AUTOMATION, IDENTIFICATION, INSPECTION.

Inductive, Capacitive, magnetic sensors

This sensor range delivers exceptional precision and reliability. Engineered for non-contact detection of diverse object...

SENSORS FOR MACHINE AUTOMATION, IDENTIFICATION, INSPECTION.

Distance Sensors

In industrial settings, precise distance measurements are crucial for machine automation. SICK has developed an extensiv...

SENSORS FOR MACHINE AUTOMATION, IDENTIFICATION, INSPECTION.

Temperature, Pressure and Level Sensors

Whether you're measuring level, flow, pressure, or temperature, this range excels in monitoring essential process parame...

SENSORS FOR MACHINE AUTOMATION, IDENTIFICATION, INSPECTION.

Encoders

Whether you're tracking position, displacement, or angle, encoders provide the ideal solution. They can also measure rev...

SENSORS FOR MACHINE AUTOMATION, IDENTIFICATION, INSPECTION.

OCR, Bar Code 1D, 2D and RFID readers

Barcode readers are essential for automatic product identification. The 6MGB series offers three advanced technologies: ...

SENSORS FOR MACHINE AUTOMATION, IDENTIFICATION, INSPECTION.

2D and 3D vision cameras

With years of industry experience, SICK's 2D and 3D vision solutions excel in measurement, control, identification, and ...

SENSORS FOR MACHINE AUTOMATION, IDENTIFICATION, INSPECTION.

Photoelectric Sensors

Achieve top-tier detection for high-speed, reflective objects of various shapes and sizes. SICK's LED or SIRIC photoelec...

POWER QUALITY AND MOTOR CONTROL

Industrial VFDs

Designed for a wide range of constant and variable power/torque applications, these feature-rich motor controls enhance ...

POWER QUALITY AND MOTOR CONTROL

Compact VFDs

Compact VFDs offer full-featured performance in a smaller housing, making them ideal for integration into OEM equipment ...

POWER QUALITY AND MOTOR CONTROL

NEMA4X VFDs

NEMA 4X Drives offer highly advanced control capabilities, providing a decentralized and robust solution for demanding a...

POWER QUALITY AND MOTOR CONTROL

PANEL VFDs

Customization options include factory-assembled features such as bypass drives, harmonic filtering, fused disconnects, a...

POWER QUALITY AND MOTOR CONTROL

Hoisting and Lifting VFDs used in cranes and elevators

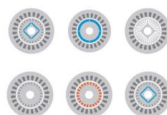

Anti-sway technology and integrated mechanical brake control provide precise, safe, and total control over your lifting ...

POWER QUALITY AND MOTOR CONTROL

Grid converter and DCDC converter

The network converter is crucial for facilitating clean energy conversion in distributed networks, whether or not they i...

POWER QUALITY AND MOTOR CONTROL

Motor Independence - One drive fit for all motors

Universal control capability for: Standard induction motors Copper rotor motors Permanent-magnet (PM) motors EC motors (...)

POWER QUALITY AND MOTOR CONTROL

Low-voltage capacitors and filters

Power factor regulators can compensate for both balanced and unbalanced networks. These devices are programmable, either...

POWER QUALITY AND MOTOR CONTROL

Active and Passive Harmonic filters

In industrial environments, passive and active filters are designed to correct harmonic distortion levels, ensuring stab...

MACHINE SAFETY

Safety laser scanners

The range of SICK laser scanners offers versatile security solutions for a wide variety of applications. Whether for fix...

MACHINE SAFETY

Fencing systems

Quick-Guard fencing systems enable you to create secure zones with the flexibility to modify them as needed. Whether usi...

MACHINE SAFETY

Safety Controllers

An intelligent and efficient solution for machine design, featuring a compact, flexible, and modular architecture. These...

MACHINE SAFETY

Safety light curtains

Several ranges of Sick safety light curtains are available, allowing you to create virtual protective perimeters using m...

MACHINE SAFETY

VFD Integrated Safety

The integrated safety options enhance the standard STO by adding advanced functions such as: Safe Stop 1 (SS1) – Ensures...

MACHINE SAFETY

Safety over Ethercat

A high level of security is essential in industrial automation. By utilizing EtherCAT with the certified Safety over Eth...

MACHINE SAFETY

Safety Interlocks and door switches

This extensive range of sensors and locks, available with or without contacts, enhances the security of your machines or...

MACHINE SAFETY

Profisafe PLCs

This Safety PLC (SIL3, PL e) is specifically designed for safety applications in factories, machinery, and process autom...

MACHINE SAFETY

Distributed safety IOs

To optimize the connectivity of your security equipment, remote systems play a crucial role in enhancing the ergonomics ...
